ASTM A36/A36M-19—Standard Specification for Carbon Structural Steel

ASTM A307-21—Standard Specification for Carbon Steel Bolts, Studs, and Threaded Rod 60000 PSI Tensile Strength

ASTM A370-24—Standard Test Methods and Definitions for Mechanical Testing of Steel Products

ASTM A416/A416M-24—Standard Specification for Steel Strand, Uncoated Seven-Wire for Prestressed Concrete

ASTM A421/A421M-21—Standard Specification for Stress-Relieved Steel Wire for Prestressed Concrete

ASTM A615/A615M-24—Standard Specification for Deformed and Plain Carbon-Steel Bars for Concrete Reinforcement

ASTM A706/A706M-24—Standard Specification for Deformed and Plain Low-Alloy Steel Bars for Concrete Reinforcement

ASTM A722/A722M-18—Standard Specification for Uncoated High-Strength Steel Bars for Prestressed Concrete

ASTM A767/A767M-19—Standard Specification for Zinc-Coated (Galvanized) Steel Bars for Concrete Reinforcement

ASTM A775/A775M-22—Standard Specification for Epoxy-Coated Steel Reinforcing Bars

ASTM A934/A934M-22—Standard Specification for Epoxy-Coated Prefabricated Steel Reinforcing Bars

ASTM A955/A955M-20a—Standard Specification for Deformed and Plain Stainless-Steel Bars for Concrete Reinforcement

ASTM A970/A970M-24—Standard Specification for Headed Steel Bars for Concrete Reinforcement, including Annex A1 Requirements for Class HA Head Dimensions

ASTM A996/A996M-24—Standard Specification for Rail-Steel and Axle-Steel Deformed Bars for Concrete Reinforcement

ASTM A1022/A1022M-22a—Standard Specification for Deformed and Plain Stainless-Steel Wire and Welded Wire for Concrete Reinforcement

ASTM A1035/A1035M-24—Standard Specification for Deformed and Plain, Low-Carbon, Chromium, Steel Bars for Concrete Reinforcement

ASTM A1044/A1044M-22a—Standard Specification for Steel Stud Assemblies for Shear Reinforcement of Concrete

ASTM A1055/A1055M-22—Standard Specification for Zinc and Epoxy Dual-Coated Steel Reinforcing Bars

ASTM A1064/A1064M-24—Standard Specification for Carbon-Steel Wire and Welded Wire Reinforcement, Plain and Deformed, for Concrete

ASTM C31/C31M-24b—Standard Practice for Making and Curing Concrete Test Specimens in the Field

ASTM C33/C33M-24—Standard Specification for Concrete Aggregates

ASTM C39/C39M-24—Standard Test Method for Compressive Strength of Cylindrical Concrete Specimens

ASTM C42/C42M-20—Standard Test Method for Obtaining and Testing Drilled Cores and Sawed Beams of Concrete

ASTM C94/C94M-24b—Standard Specification for Ready-Mixed Concrete

ASTM C114-24—Standard Test Methods for Chemical Analysis of Hydraulic Cement

ASTM C150/C150M-21—Standard Specification for Portland Cement

ASTM C171-20—Standard Specification for Sheet Materials for Curing Concrete

ASTM C172/C172M-17—Standard Practice for Sampling Freshly Mixed Concrete

ASTM C173/C173M-24—Standard Test Method for Air Content of Freshly Mixed Concrete by the Volumetric Method

ASTM C192/C192M-19—Standard Practice for Making and Curing Concrete Test Specimens in the Laboratory

ASTM C231/C231M-24—Standard Test Method for Air Content of Freshly Mixed Concrete by the Pressure Method

ASTM C309-19—Standard Specification for Liquid Membrane-Forming Compounds for Curing Concrete

ASTM C330/C330M-23—Standard Specification for Lightweight Aggregates for Structural Concrete

ASTM C457/C457M-24—Standard Test Method for Microscopical Determination of Parameters of the Air-Void System in Hardened Concrete

ASTM C469/C469M-22—Standard Test Method for Static Modulus of Elasticity and Poisson's Ratio of Concrete in Compression

ASTM C494/C494M-24—Standard Specification for Chemical Admixtures for Concrete

ASTM C567/567M-19—Standard Test Method for Determining Density of Structural Lightweight Concrete

ASTM C595/C595M-24—Standard Specification for Blended Hydraulic Cements

ASTM C618-23<sup>e1</sup>—Standard Specification for Coal Fly Ash and Raw or Calcined Natural Pozzolan for Use in Concrete

ASTM C685/C685M-24—Standard Specification for Concrete Made by Volumetric Batching and Continuous Mixing

ASTM C803/803M-23—Standard Test Method for Penetration Resistance of Hardened Concrete

ASTM C805/C805M-18—Standard Test Method for Rebound Number of Hardened Concrete

ASTM C845/C845M-18—Standard Specification for Expansive Hydraulic Cement

ASTM C873/873CM-23—Standard Test Method for Compressive Strength of Concrete Cylinders Cast in Place in Cylindrical Molds

ASTM C900-23—Standard Test Method for Pullout Strength of Hardened Concrete

ASTM C989/C989M-24—Standard Specification for Slag Cement for Use in Concrete and Mortars

ASTM C1012/C1012M-24—Standard Test Method for Length Change of Hydraulic-Cement Mortars Exposed to a Sulfate Solution

ASTM C1017/C1017M-13<sup>e1</sup>—Standard Specification for Chemical Admixtures for Use in Producing Flowing Concrete (Withdrawn 2022)

ASTM C1074-19<sup>e1</sup>—Standard Practice for Estimating Concrete Strength by the Maturity Method

ASTM C1077-24—Standard Practice for Laboratories Testing Concrete and Concrete Aggregates for Use in Construction and Criteria for Testing Agency Evaluation

ASTM C1140/C1140M-11(2019)—Standard Practice for Preparing and Testing Specimens from Shotcrete Test Panels

ASTM C1152/C1152M-20—Standard Test Method for Acid-Soluble Chloride in Mortar and Concrete

ASTM C1157/C1157M-23—Standard Performance Specification for Hydraulic Cement

ASTM C1202-22<sup>e1</sup>—Standard Test Method for Electrical Indication of Concrete's Ability to Resist Chloride Ion Penetration

ASTM C1218/C1218M-20—Standard Test Method for Water-Soluble Chloride in Mortar and Concrete

ASTM C1240-20—Standard Specification for Silica Fume Used in Cementitious Mixtures

ASTM C1293/C1293M-23a—Standard Test Method for Determination of Length Change of Concrete Due to Alkali-Silica Reaction

ASTM C1315-19—Standard Specification for Liquid Membrane-Forming Compounds Having Special Properties for Curing and Sealing Concrete

ASTM C1602/C1602M-22—Standard Specification for Mixing Water Used in Production of Hydraulic Cement Concrete

ASTM C1604/C1604M-05(2019)—Standard Test Method for Obtaining and Testing Drilled Cores of Shotcrete

ASTM C1609/C1609M-24—Standard Test Method for Flexural Performance of Fiber-Reinforced Concrete (Using Beam With Third-Point Loading)

ASTM C1761/C1761M-23—Standard Specification for Lightweight Aggregate for Internal Curing of Concrete

ASTM C1778-23—Standard Guide for Reducing the Risk of Deleterious Alkali-Aggregate Reaction in Concrete

ASTM C1797-17—Standard Specification for Ground Calcium Carbonate and Aggregate Mineral Fillers for use in Hydraulic Cement Concrete

ASTM C1866/C1866M-20—Standard Specification for Ground-Glass Pozzolan for Use in Concrete

ASTM D3665-12(2017)—Standard Practice for Random Sampling of Construction Materials

ASTM E8/E8M-24—Standard Test Methods for Tension Testing of Metallic Materials

ASTM E9-19—Standard Test Methods of Compression Testing of Metallic Materials at Room Temperature

ASTM F1554-20—Standard Specification for Anchor Bolts, Steel, 36, 55, and 105-ksi Yield Strength

ASTM E2921-22—Standard Practice for Minimum Criteria for Comparing Whole Building Life Cycle Assessments for Use with Building Codes and Rating Systems
